Using file, you can circumvent those limits without paying to upgrade your team chat service. Your wallet will be none-the-lighter! Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can upload any type of file (movies, music, documents, images, zip files and more). You don't need any special software installed to be able to download your files. You decide who you want to share your files with. Keep your files private, or send your download links only to friends or family. Simply upload your file and share the link. File is free to use with no gotchas and no hidden fees. The cost of that data transfer is covered by your internet service or the data plan on your phone. Just upload the file you want to share with your friends and we send you a download link to your file. No account or credit card is required to get started. We have no file size limit. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees.
